

Huawei Y6S Screen protector 2.5D Tempered glass Bigben

Descriptif produit

The effective screen protector against everyday shocks

High resistance to scratches and shocks
The 9H hardness standard of tempered glass makes it the most scratch-resistant screen protector. The 9H grade is at the highest level of hardness before diamond (10H) on a scale that defines resistance to touch, pressure and shocks.

Smooth and fine touch
A sensitivity that greatly facilitates use and allows you to take full advantage of all the features of your screen.

A real fuse against the breakage of your screen
Its role is to break by absorbing the shock to protect the screen of your device.

Anti-explosion coating
Secure glass to prevent shards from scattering in the event of breakage.

High definition
An optimal level of optical transmission and a minimal reflection rate allow the quality of the bright image and its colors to be maintained

Anti-fingerprint
Polymer-based surface treatment against fingerprints and the most frequent marks

This tempered glass is perfectly suited to your device, while leaving enough space to use it with most cases.

How does the Recyclerie work?
You have just purchased one of our products and you wish to return your old product to us for recycling. We ensure the collection of all old products, which are then dismantled and recycled in the appropriate sector by our partner Véolia.

How do I return my product?
Thanks to the QR code or link provided in the pack of the purchased product www.bigbenconnected.fr/recyclerie/, download a prepaid return on our website to send us your product to be recycled.

What happens to my old product?
Once recycled, your product is reintegrated into the production of everyday objects such as: bicycles, radiators, public benches, etc., this is called the circular economy!

What is my product's Green Act rating?
Green Act has been designed to help you make a more responsible choice in favor of the environment when buying an accessory for your mobile. Each product is rated on more than 70 criteria evaluating its environmental, social and ethical impact as well as its performance in use.
