Powerbank Turbo 20000mAh 2 USB ports C+A 100W PD/QC For Notebooks Rivacase

Descriptif produit

The ultra-fast high-capacity 20000 mAh power bank with 100W Power Delivery

Optimal 20000 mAh capacity for everyday travels
This high-performance external battery offers an ideal power reserve to fully recharge your daily mobile devices multiple times. It perfectly balances a compact form factor with great autonomy to support you during business trips or vacations.

100W Power Delivery technology for laptop computers
Thanks to its ultra-powerful 100W USB-C output port, it can refuel demanding laptops efficiently and at full speed. An indispensable ultra-fast charging solution to maintain your daily productivity wherever you are.

Versatile dual USB-C and USB-A charging ports
It features both USB-C and USB-A connectors to simultaneously charge two devices like a smartphone, a tablet, or wireless earbuds. Its smart system automatically adapts the necessary output to guarantee a safe and efficient charge.

Digital control interface and precise status display
An integrated digital screen shows the exact remaining battery percentage and active charging status in real time. This clear feature prevents any unexpected power shortages and allows you to easily plan your energy needs.

Total security and multi-layer electronic shielding
This cutting-edge portable charger incorporates advanced protections against overcharging, over-discharging, overheating, and short circuits. Your valuable electronic hardware is perfectly preserved and secured against any electrical issues.

Compact, robust, and highly transportable structural layout
Its impact-resistant outer shell is engineered to withstand the constraints of intensive mobile use inside a backpack. Its ergonomic and lightweight profile offers an excellent grip for hassle-free daily carrying.

Universal - Port(s) USB A+C

Feature(s) : Battery Capacity: 20000mAh - For Notebooks

Port(s) : USB C / USB C

Power : 20000mAh

Ref : RIVACPB1090BK

EAN : 4260709016337

Pack contents : Powerbank Turbo 20000mAh + USB C / USB C Cable + User Guide/Security/Warranty

Technical characteristics

Ideal capacity: 20000 mAh high-density cell providing extended battery backup for smartphones and tablets
Maximum power: 100W USB-C output with Power Delivery protocol compatible with premium laptops
Dual connectivity: Integrated USB-C and USB-A ports to supply power to two mobile devices simultaneously
Precise indicator: LCD digital screen showing real-time exact battery percentage metrics and charging tracking
Certified safety: Comprehensive hardware protection safeguards against overheating, power surges, and short circuits
Nomad layout: Robust, compact, and lightweight housing tailored to fit seamlessly into any laptop bag
