USB Adaptater + SD Card Black Samsung

Descriptif produit

Extend the capabilities of your Galaxy TAB: connect, transfer and share your files in an instant.

Set of adapters designed for your Samsung Galaxy Tab to allow you to connect your phone to a device via USB and read SD memory cards from your phone: 30-pin/USB + 30-pin/SD Card

Versatile 2-in-1 Connectivity
This exclusive pack includes two essential adapters to optimize the use of your Samsung Galaxy Tab. It allows you to expand your connectivity options thanks to the integrated USB and SD card ports.

Simple and Instant USB Transfer
The 30-pin to USB adapter makes it easy to transfer your data to a computer or other device. Simply plug in your peripherals to manage your files without any complex setup.

Direct SD Card Reading
With the 30-pin to SD card adapter, view your photos and videos directly on your tablet screen. It's the perfect tool for quickly offloading your camera's memory while on the go.

Expansion for Peripherals
The USB port allows you to connect various external accessories to your Samsung Galaxy Tab. You can then connect a USB flash drive or other compatible devices to increase your productivity.

Compact and portable design
These two adapters are designed to be lightweight and easy to carry in a bag or pocket. They provide a reliable memory expansion and connectivity solution, wherever you are.
