SAMSUNG

SD Flash Memory Card EVO 64GB Class 10 - 48 MB/S Samsung

Descriptif produit

The ultra-fast EVO model is the ideal solution for smartphones, tablets, Full HD cameras and DSLR cameras.

The ultra-fast EVO is the ideal solution for smartphones, tablets, Full HD cameras and DSLR cameras. Its extremely high performance allows you to transfer even more high-resolution photos and videos.

Fast capture
Save your precious memories quickly. This Ultra High Speed memory card is UHS-1, which means it takes photos and videos twice as fast as your standard micro SD card.

Fast transfer
Transfer 360 photos per minute. With a transfer speed of up to 48MB per second, you can spend less time transferring memories, and more time making them.

Quadruple resistance
Your irreplaceable moments are well saved. The EVO card offers quadruple protection: it withstands more than 24 hours in seawater, endures extreme temperatures, withstands airport X-rays and magnetic fields equivalent to an MRI scanner.

SD adapter included
Allows you to convert your micro SD card into an SD card

Compatible with most devices that have a micro SD/SDHC port that can accept the card's capacity, including smartphones, tablets, surveillance cameras and more
