

Adapter Archer T2U USB WiFi AC600Mbps High gain Dual band Black TP-Link

Descriptif produit

Thanks to its dual-band capability, the Archer T2U allows you to connect a PC or laptop to a high-speed WiFi network.

High-speed Wi-Fi

The Archer T2U lets you connect a PC or laptop to a Wi-Fi network with a total throughput of up to 600 Mbps, with data rates of 150 Mbps on the 2.4 GHz band and 433 Mbps on the 5 GHz band, allowing your devices to experience faster AC Wi-Fi speeds.

High-speed dual-band adapter

The Archer T2U receives Wi-Fi signals on two separate bands, enabling your devices to operate with flexible connectivity, faster speeds, and extended range. The 5 GHz band is ideal for streaming high-definition video and lag-free online gaming, while the 2.4 GHz band is ideal for everyday use such as web browsing.

Mini design for even greater convenience

The Archer T2U is smaller than most USB Wi-Fi 11ac adapters on the market. Its compact and stylish design makes it easy to take on the go. Users can connect the mini-adapter to any USB port and leave it plugged in for extended periods.

Stylish and elegant adapter

The Archer T2U features a crystal-clear surface created using our advanced molding technology. Users also appreciate the smooth, soft feel.

Advanced security

WPA/WPA2 encryption ensures optimal network security.

Easy installation

An intuitive interface for simple setup.
