

SAMSUNG

IC100 USB C Earphones In-Ear Black Samsung

Descriptif produit

Samsung Tuned by AKG earphones are high-quality wireless earphones that deliver crystal-clear sound, excellent performance and a pleasant listening experience.

An audio studio experience wherever you are
Designed to separate left and right signals, Samsung AKG earphones provide clear, studio-quality sound. The DAC optimises what you're listening to and puts you right at the heart of your music.

Professional sound designed specifically for your ears
Thanks to a combination of sound technology from AKG with 2 loudspeakers, you can enjoy rich and balanced sound in professional quality.

Designed for easy and comfortable listening
Made from lightweight materials, each earpiece is designed to fit comfortably in your ears so you can listen to your music with complete peace of mind. Simply choose from the included eartip options for the best fit. Plus, the fabric cable keeps the earphones from getting tangled in your bag or pocket.
