

## Descriptif produit

### Perfect for high-speed transmission of digital audio and video data, e.g. between a Blu-ray player, satellite receiver and TV set

Robust metal connector and optimum shielding for reliable signal transmission  
High quality materials and separately shielded data lines for excellent video and audio quality without interference  
Easy to install thanks to the elastic and environmentally friendly TPE material  
Flexible materials offering optimum bend protection and preventing cable breakage  
Removable ferrite core for greater flexibility during installation and to eliminate persistent interference  
Elegant, highly flexible textile sheathing for additional protection against cable twisting  
24 carat gold-plated plug offers better contact quality, prevents oxidation and increases signal stability.  
Integrated channel for network data transmission up to 100 Mbit/s  
Audio signal return without additional cable (ODT, RCA etc.)  
Transfer rate: 18 Gbit/s

**Connector type HDMI™ / HDMI™**

**Color : Black**

**Feature(s) : Lenght: 1.5m**

**Ref : HMCBHDMIETH15M**

**EAN : 4047443190499**

**Pack contents :** HDMI™ Cable HiSpeed with Ethernet support 1.5m Male/Male + User Guide/Security/Warranty

## Compatible mobiles

### Compatibilité

Compatible avec : IPHONE 3G .
