

Router WiFi AX1500Mbps Dual Band - Archer AX10 Black TP-Link

Descriptif produit

Enjoy the best possible connection with complete fluidity.

Advanced and Revolutionary: WiFi 6

WiFi 6 delivers a massive increase in speed and overall capacity. Experience the latest WiFi technology to eliminate annoying lag and slowdowns, and enjoy the future of networking with faster charging and more connections.

Enjoy WiFi 6 AX throughout your home

The TP-Link Archer AX10 features WiFi 6 technology, enabling a significant speed upgrade while remaining backward compatible with 802.11a/b/g/n/ac WiFi standards. Equipped with four WiFi antennas and capable of supporting 1024 QAM technology and 160 MHz channels, the Archer AX10 also includes a 1 GbE WAN port and four Gigabit Ethernet ports. This ensures that all your connected devices can enjoy the best possible connection with seamless performance.

Blazing Speed

Featuring 160 MHz bandwidth and 1024-QAM technology, the TP-Link Archer AX10 delivers true gigabit speeds of up to 1 Gbps. Enjoy faster streaming and gaming than ever before. The Archer AX10 is powered by a 1.5 GHz triple-core processor, making it a fully featured AX1500 WiFi 6 router. It pairs perfectly with the latest PCs and laptops equipped with an AX WiFi chip, allowing many bandwidth-intensive tasks to run smoothly.

Connect a Dozen Devices

Add more WiFi devices without sacrificing performance. OFDMA allows multiple devices to use a single band simultaneously, enabling your WiFi network to support more devices compared to the same speed-level WiFi 5 router.

Less latency, better experience

Taking a giant leap forward in wireless connectivity, Wi-Fi 6 brings stable and responsive Wi-Fi connections to the hyper-connected homes of tomorrow. Enjoy more responsive gaming and seamless video conferencing, even when multiple compatible devices are connected and transmitting data simultaneously.

Boosted Wi-Fi coverage

Four external high-gain antennas and Beamforming technology combine to extend powerful and reliable Wi-Fi throughout your home. Cutting-edge Wi-Fi 6 technologies, such as BSS Color, ensure smooth and stable connections by eliminating signal interference from your neighbors.

Instant response with every click

A 1.5 GHz triple-core processor delivers overwhelming power to handle massive amounts of data, reducing latency within your network. Enjoy instant response when you click the play button for online streaming and get better quality for online video chat.

Ready for the connected home

With the growing number of devices in today's homes, everyone deserves a simpler, smarter way to bring all your products together. Use Amazon Alexa to control everything with voice commands for a truly smarter life.

Easy to set up and use

The Tether app lets you manage network settings, including parental controls and media sharing preferences, from any Android or iOS device.

Parental Controls

Block inappropriate content and limit screen time

VPN Service

Securely access your home files from anywhere with a secure VPN connection.

Compatible WiFi Universel

Color : Black

Ref : TPLROUTEURW6

EAN : 6935364089221

Pack contents : Router WiFi AX1500Mbps Dual Band - Archer AX10 + User Guide/Security/Warranty

Compatible mobiles

Compatibilité

Compatible avec : IPHONE 3G .
