

Range Extender WiFi AC750Mbps Dual Band - RE220 White TP-Link

Descriptif produit

Extend high-speed Wi-Fi throughout your entire home!

Boost your WiFi in hard-to-reach areas

Place the RE220 between your WiFi router and your WiFi devices to extend WiFi coverage while eliminating dead zones. Dual-band WiFi up to 750 Mbps can not only extend up to 300 m² with your router, but also make good use of your ISP's high speed, ideal for HD video streaming, online gaming, and other bandwidth-intensive tasks.

Stable dual-band connection for more devices

The RE220's AC WiFi technology creates faster, stronger WiFi connections throughout your home and extends dual-band WiFi up to 750 Mbps. The 2.4 GHz and 5 GHz bands provide WiFi connections for up to 32 devices, allowing you to enjoy a stable, drop-free experience on all your devices.

Simple Two-Step Setup

Step 1: Press the WPS button on both the router and the RE220 to easily connect the repeater to the network. Alternatively, connect the repeater via the Tether app or web interface if your router does not support WPS.

Step 2: Move the repeater to a better location for optimal Wi-Fi coverage using the smart signal indicator light.

A Wi-Fi Access Point and Adapter

The RE220's Ethernet port can easily turn your wired internet connection into a Wi-Fi access point. It can also function as a Wi-Fi adapter to connect wired devices.

High-Speed Mode for Maximum Performance

High-Speed Mode uses a dedicated Wi-Fi band as backhaul and another dedicated Wi-Fi band as the access point to maximize bandwidth on the repeater's Wi-Fi network.

Technical characteristics

Smart management via the Tether app

Set up and manage your WiFi via the TP-Link Tether app on your smartphone (Android, iOS).

Compatible mobiles

Compatibilité

Compatible avec : IPHONE 3G .

Compatible WiFi Universel

Color : White

Ref : TPLREPETWIFIAC750

EAN : 1210002613750

Pack contents : Range Extender WiFi AC750Mbps Dual Band - RE220 + User Guide/Security/Warranty
