

iPhone 13 mini Reinforced Case Feronia Bio Terra 2m Black Itskins

Descriptif produit

The reinforced case 100% Biodegradable & Compostable

100% Biodegradable & Compostable, the Feronia Bio Pure case offers intelligent protection against falls up to 2 meters.

Your case has the combination of 2 technologies for better shock absorption: IMPACTHANE® polymer and air cushion technology.

The shocks are absorbed, dissipated and repelled by the "honeycomb" HEXO TEK 2.0 air cushion technology on contours and corners of the reinforced case.

Very thin, the case remains super efficient with military quality protection.

The microbial defense built into the IMPACTHANE® antimicrobial materials protects against many common germs and reduces germs by up to 99.99%.

The corners and edges are raised to provide optimum protection for the screen and photo lenses.

Allow free access to all the mobile's functionalities as well as to the connectors.

For each FERONIA BIO case purchased, ITSKINS plants a tree (ONE TREE PLANTED program)

Compatible iPhone 13 mini

Color : **Black**

Feature(s) : **Drop Resistance: 2m**
