

Twins 2 True Wireless Earphones In-Ear Storm Grey Fresh'n Rebel

Descriptif produit

With these wireless headphones you can enjoy your music in a stylish and uncluttered way

True Wireless
Discover freedom! True Wireless means no cables or wires at all. Use Bluetooth to connect the Twins 2 wirelessly to your device and enjoy the freedom of listening.

Quality audio
The Twins 2 offer crystal clear, well-balanced sound with deep bass from the advanced drivers. Make the most of every song and beat with these new and improved Twins 2.

In-ear
The Twins 2 have been designed to fit perfectly in your ear and, thanks to their perfect shape and small size, they look great.

Waterproof
Planning to use the Twins 2 for running in the rain? Don't worry: they are splash-proof to IPX4!

Self-contained
Time flies when you're having fun! The charging case allows you to charge the headphones 4 times, and on each full charge you can use them for 4 hours. That's a total of 20 hours of playback time! Open the charging case, and the LED lights will show you the remaining battery level.

Wireless charging capability
Charge your case wirelessly in just 1 hour on a (Qi compatible) charging cradle. Don't have one? Use the included USB-C charging cable to power it at the same time!

Compact case
The compact charging case has rounded edges and a smooth surface that makes it easy to slip in and out of a pocket or bag. You can even find our redesigned logo on this cool accessory.

Dual Master
Both earphones have a built-in microphone, so you can use them individually (either the right or left one) or together for stereo sound. Make a call or listen to your music the way you like it.

Automatic pairing
Every time you take the headphones out of the charging case, they automatically turn on and connect to your phone within seconds. And when you put them back in the case, they disconnect and turn off. With optimal stability, they work great and fast!

Touch control
You can touch the headphones to control your music and answer your calls. That way you don't even have to take your phone out of your pocket or bag!

Voice assistant
The Twins 2 support Siri and Google Assistant (depending on your device). Just tell them what to do, keep your hands free and stay safe!
