

Range Extender WiFi AX1500Mbps Dual Band - RE505X White TP-Link

Descriptif produit

Extend your wireless coverage with the new generation WiFi 6

WiFi 6, Cutting-Edge WiFi
The latest WiFi technology eliminates annoying lag, endless loading times, and dead spots. Enjoy the future of faster network loads and more connections.

Fill every square centimeter of your home with WiFi 6
The RE505X extender connects wirelessly to your router or modem, amplifying your WiFi 6 signal throughout your home so you can watch your favorite show anywhere.

Built-in Access Point Mode
The RE505X is more than just a WiFi repeater.
Simply plug an Ethernet cable into its port to easily transform that wired connection into a high-speed, dual-band WiFi signal.

TP-Link OneMesh™
OneMesh is an easy way to create a mesh network with a single WiFi name for whole-home coverage. Simply connect a OneMesh WiFi extender to a OneMesh router. No more searching for a stable connection.

Smart Roaming
Uninterrupted streaming as you move around your home

One Wi-Fi network name
No more switching Wi-Fi network names

Easy setup
The OneMesh router and OneMesh extenders pair instantly

Centralized management
Manage your entire network from the TP-Link Tether app
