Galaxy Buds 2 Pro True Wireless Earphones ANC In-Ear Lavender Samsung

Descriptif produit

Enjoy a next-level listening experience that lets you feel every note like you're there.

Designed to fit perfectly into your world
Hearing is believing. Galaxy Buds2 Pro pack a studio-worthy listening experience into our most comfortable design yet — wear them as long as you want.

Every moment now sounds epic
Studio-quality sound isn't just for the pros. Feel every note like you're there with Galaxy Buds2 Pro. Now everyone can have a next-level listening experience, whether you're rocking out to your playlist or staying informed with a podcast.

Hear only what you want
Reduce unwanted noise with Galaxy Buds2 Pro. They use Intelligent Active Noise Cancellation to quiet even the loudest outside sounds. Tune in to what matters most without being bothered by distracting sounds around you.

Surround sound that's all about you
Go beyond just listening and surround yourself with the sounds you love — and nothing else. Amplify what you like. Minimize what you don't. Enhanced 360-degree audio brings out the tones you love from every angle for a personalized surround-sound experience every time you pop them in.

Don't miss a word
Keep the conversation going without taking out your Galaxy Buds2 Pro. When your voice is detected, Intelligent Conversation Mode turns off Active Noise Cancellation, turns down the volume and puts your Buds in Ambient Mode. This helps you hear the other person's voice loud and clear. When the conversation is over, your Buds shift back to their previous settings automatically. Now you can catch every word without having to lift a finger.

A Galaxy in perfect sync
These Buds play well with others. Galaxy Buds2 Pro pair easily with your Galaxy devices. Simply open the case and tap connect to pair with your Galaxy devices quickly. Whether you're pairing with your tablet, phone or Watch, Buds2 Pro syncs in a cinch and automatically switches audio sources when an alert or call comes in to keep you in the know.

Look out for your Buds
Keeping up with your Buds is easy with Smart Things Find. When a Bud becomes disconnected, you'll get an alert. If you miss that notification, simply turn on Smart Things Find on your phone. You'll see a map that points to the last location the Bud was connected. Simply retrieve your Bud, and you're good to go!

Pairs almost like magic
You won't believe how easy it is to pair Galaxy Buds2 Pro to your other Galaxy devices through your Samsung account — just tap to connect as soon as you open the case. Once paired, Buds2 Pro show up in your list of paired devices. Then with Bluetooth Info Sync, you can effortlessly shift your Buds2 Pro between your Galaxy phone, tablet, watch or PC.

Best Buds with your TV and PC
Next-level sound doesn't stop at calls and music. Sync Galaxy Buds2 Pro with your Samsung TV for a theatrical experience, or pair them with your PC and lock in to your workflow.

Sound never felt so right
Pop ‘em in and forget they're there. Galaxy Buds2 Pro are designed to be even more comfortable than before and fit securely no matter what you're doing. Whether you're working or working out, make all your moves comfortably.

Not today, water
Water won't ruin your workout. Your IPX7 water-resistant Galaxy Buds2 Pro can keep the beat going even with a little rain. They're protected for immersion up to 3 feet deep for a half-hour.
