

Samsung Galaxy S23 5G Folio S View Cover with transparent window Lilac Samsung

Descriptif produit

With the Samsung S-View Flip Cover, tap and swipe to control your phone, without even opening the phone case.

Respond to incoming phone calls, alarms and events even while still protecting the screen. With a lower profile design, the time and your notifications are just a glance away. Antimicrobial property is applied as a coating to protect the phone cover.

Antimicrobial Cover Protection
Antimicrobial property is applied as a coating to protect the phone cover.

Slimmer design
The case's slim profile and lightweight materials ensure that the ergonomic design of your phone is unhindered so you can hold onto it comfortably.

Control with ease
It's simple to answer calls, control your music, and more-all without opening the cover. Tap and swipe as needed, and even read important information like time, date, and battery level on the new vertical clear interface.

Designed to protect
Snap into a case that protects from all sides. It securely holds your phone to cover the back, while the attached front flap prevents screen scratches when in your bag or pocket.
