

Doro 8100 / 8110 / 8200 / 8210 / 8220 Screen protector Tempered glass Doro

Descriptif produit

The essential accessory to effectively watch over your mobile screen

High resistance to scratches and shocks
The 9H hardness standard of tempered glass makes it the most scratch-resistant screen protector. The 9H grade is at the highest level of hardness before diamond (10H) on a scale that defines resistance to touch, pressure and shocks.

Smooth and fine touch
A sensitivity that greatly facilitates use and allows you to take full advantage of all the features of your screen.

A real fuse against the breakage of your screen
Its role is to break by absorbing the shock to protect the screen of your device.

High definition
An optimal level of optical transmission and a minimal reflection rate allow the quality of the bright image and its colors to be maintained

Anti-fingerprint
Polymer-based surface treatment against fingerprints and the most frequent marks

This tempered glass is perfectly suited to your device, while leaving enough space to use it with most cases.
