

Contactless purse Unicorn - Made in France Money Walkie

Descriptif produit

Give your child a safe introduction to contactless payments with a connected money wallet made in France, perfectly designed to foster everyday financial independence.

Smart and Secure Contactless Payment This contactless wallet transforms daily errands by allowing children to pay for small purchases at local shops quickly and easily. It completely eliminates the need to carry physical cash while ensuring smooth transactions. Financial Literacy and Independence Designed as a practical educational tool, this fun device helps kids understand the value of money through their first real-world purchases. It offers an ideal step-by-step approach to building confidence and money management skills. Full Parental Control via Dedicated App Through the companion mobile app, parents can instantly top up the wallet, track every transaction in real time, and maintain complete oversight of their child's daily spending. Custom Spending Limits and Instant Lock For complete peace of mind, parents can easily set daily or weekly spending thresholds. In the event of loss, the wallet can be locked or unlocked remotely at any time directly from a smartphone. Ultra-Compact Everyday Design Its ergonomic and space-saving profile is specifically tailored for kids on the go. It slides effortlessly and discreetly into clothing pockets or school bag compartments. Authentic Made in France Craftsmanship Proudly designed and manufactured in France to high standards, this product highlights local manufacturing quality and strict safety regulations for long-lasting use.
