

Earpods 3.5mm Jack Earphones Remote/Micro Earbud White Apple

Descriptif produit

The EarPods offer you very good audio reproduction, without completely cutting you off from the outside world.

Unlike traditional circular earbuds, the design of the EarPods conforms to the geometry of the ear. This makes them more comfortable than any other earbud of this type for a wider range of people.
The EarPods' drivers have been designed to optimize sound output, providing you with superior audio quality.
The EarPods (Jack 3.5mm connector) also include a remote control that lets you adjust the volume, control audio and video playback, and answer or end calls with a simple touch.
