

2 USB C Charger 40W (20+20W) PD White WOW

Descriptif produit

Download CE/EU declaration of conformity

A charger with Power Delivery: the fastest charging protocol on the market for mobile devices. The solution for fast, efficient charging in the office, at home or on the move.

This Power Delivery-compatible dual home charger guarantees ultra-fast charging so you can get on with your day-to-day business.

Charge 2 ports simultaneously
Your charger's two USB-C inputs offer a maximum charging speed of 40W (20W and 20W), so you can charge your devices faster and simultaneously.

Power Delivery: unrivalled charging speed
The efficiency of its Power Delivery compatible technology guarantees a much faster charging speed than the traditional protocol, which takes hours. Its USB C ports deliver a maximum charge of 40W to charge your device up to 70% faster than standard 5W technology*.

One powerful charger for all your devices
No more multiple chargers at home and in the office: opt for a single, efficient charger for all your smartphones and tablets!

Extremely fast charging time
This charger offers a high-performance solution for powering all your iOS (Apple) and Android (Google, Samsung, Xiaomi, Oppo...) devices. Recharge up to 50% of the battery of your iPhone 8 or later model or your Samsung S20 or later model in just 30 minutes*!

Intelligent and secure
The charger automatically detects the fast charge current you need: handy if you're in a hurry to boost your battery in no time! This innovative technology avoids the risk of overheating and extends battery life. When the battery is full, the power supply cuts out to prevent the battery from running continuously.

Power Delivery compatibility
To benefit from the optimal charging speed of a Power Delivery charger, you need a device or Android compatible with this technology, a USB type C to USB type C or Lightning to USB type C charging cable and a USB-PD compatible charger.

*Charging time depends on the charging capacity of the devices, as well as temperature, battery wear, the power delivered by the charger and the charge level of the device.

Works with protocols: PPS (Samsung), PD 3.0 (Apple, Samsung, Fairfone, One Plus), Apple 2.4A (Apple)

Universel - Port(s) USB C+C PD

Color : **White**

Feature(s) : **USB Port(s) Output: 2 USB C 40W (20+20W) - Charge Protocole: Ultra-Fast Charge, Wall power adapter, Compatible with Android, iPhone, Tablets, Accessories**
