AirPods 4: Revolutionary Sound Immersion and Unmatched Comfort

Redesigned acoustic architecture
AirPods 4 feature a new acoustic structure to deliver deeper bass and exceptionally clear highs. The H2 chip optimizes every sound detail for a rich and immersive listening experience.

Personalized Spatial Audio
This technology tracks your head movements to create a 360-degree surrounding sound, bringing a theater-like experience to your ears. Adaptive EQ automatically tunes music to the shape of your ears for perfect fidelity.

Optimized comfort and ergonomics
The new design has been refined using thousands of ear scans to naturally fit a wider variety of ear shapes. Their lightweight build ensures a stable and comfortable fit, even during the longest listening sessions.

Intuitive controls and Siri
The force sensor allows you to manage calls, skip tracks, or mute the microphone with a simple, precise gesture. Siri is more responsive than ever, letting you interact with notifications without reaching for your device.

Battery life and USB-C charging
The charging case, now equipped with a universal USB-C port, provides up to 30 hours of total listening time. A quick 5-minute charge in the case delivers approximately one hour of immediate playback.

Durability and resistance
Both the earbuds and the case are IP54 certified, offering effective protection against dust, sweat, and water. They safely accompany you during workouts or in light rain conditions.

Compatible Bluetooth®

Color : White

Ref : MXP63ZM/A

EAN : 0195949688591

Pack contents : True Wireless Earphones + User Guide/Security/Warranty

Technical characteristics

- Chip: Apple H2 for intelligent audio management.
- Audio: Personalized Spatial Audio with dynamic head tracking.
- Connectivity: Bluetooth 5.3 and USB-C charging port.
- Battery Life: Up to 30h with case and 5h per single charge.
- Sensors: Force sensor for control and automatic ear detection.
- Resistance: IP54 rated (dust, sweat, and water resistant).
- Microphones: Dual beamforming mics for crystal-clear calls.
