

Tune Flex 2 True Wireless Earphones Waterproof Earbud Black JBL

Descriptif produit

Pure bass, zero noise

JBL Pure Bass and Spatial Sound
JBL Tune Flex 2 headphones feature 12mm dynamic drivers that deliver powerful JBL Pure Bass sound. Plus, whether you're listening to your favorite playlist, watching a movie, or playing a game, JBL Spatial Sound transforms stereo sound from any source or device into a more immersive listening experience.

Adaptive Noise Cancellation and Smart Ambient Technology
JBL Tune Flex 2 headphones use Adaptive Noise Cancellation to completely block out ambient noise or just hear the desired level of noise from the outside world. Ambient Aware adjusts the level of noise from the outside world you want to hear, while TalkThru lets you talk to those around you—all without removing your headphones. Additional eartips let you choose the level of isolation you want from the outside world.

6 mics for perfect calls and a personalized call experience
Two external mics, forming a beam on each earbud, pick up your voice and reproduce it as clearly as possible, while an internal mic isolates noise.

Ambient noise reduction and echo cancellation algorithms capture every nuance of your voice, without noise or distortion, even when you're outside
on windy days. Use the JBL Headphones app to personalize what you and the people you talk to hear through your headphones.

Personi-Fi 3.0
Hear and feel every note of your playlist. Tailor your sound to your personal listening profile with interactive personalization tools that use precise information about you and your preferences to deliver the exact sound curve that's best for you.

2 sound modes depending on the eartips chosen
Choose open eartips to stay aware of your surroundings while wearing your earbuds. Or block out the world and enhance passive noise reduction
with three sizes of noise-isolating eartips to choose from.

Up to 48 hours of total listening time
Your earbuds provide up to 8 hours of battery life, plus three more full charges (24 hours) in the charging case with RBA enabled, or up to 12 hours plus 36 hours with RBA disabled.

IP54: Water and dust resistant*
Your JBL Tune Flex 2 earbuds have an IP54 rating, which means they are water and dust resistant. So you can use them in rainy or windy conditions.

*Earbuds only

Multipoint connection + Fast Pair by Google
Switch effortlessly between Bluetooth® devices so you can watch a video on your tablet without missing a call on your smartphone.

JBL Tune Flex 2 headphones feature Fast Pair by Google, allowing you to pair your Android devices with the touch of a button.

JBL Headphones App
Personalize the soundtrack to your life. Simply download the free JBL Headphones app to personalize your listening experience. Adjust the level of Adaptive Noise Cancellation, adjust your ambient noise control settings, create a relaxing playlist to help you unwind, check your best fit or find your earbuds. You can also choose and change earbud controls with gesture customization or tailor the sound output to the audio or video to get the most out of your content, and much more.
