Wave Buds 2 True Wireless Earphones In-Ear Black JBL

Descriptif produit

Life is too short to be bored

JBL Pure Bass sound
JBL Wave Buds 2 feature dynamic 8mm drivers that deliver great JBL Pure Bass sound.

Active Noise Reduction with Smart Ambient Technology
JBL Wave Buds 2 feature Active Noise Reduction to listen to your environment and filter out unwanted noise. Smart Ambient lets you control how much outside noise you want to hear, so you can talk with others or hear your surroundings, all without removing your earphones.

4 microphones for clear, crisp calls
Two microphones on each earpiece pick up and transmit your voice clearly while reducing ambient noise. So you can make clear, crisp calls even when you're walking in a busy park on a slightly windy day.

Water and dust resistant
Your JBL Wave Buds 2 are IP54 waterproof and dustproof, so you can use them in rainy or windy conditions. Even the case is IPX2 rated, so there's no need to worry about taking it with you.

My JBL Headphones app
Use the JBL Headphones app to select the equalisation that matches your style, or customise your own. Voice prompts in multiple languages give you useful information, like how low your battery is. Or relax and rejuvenate in Relax mode by choosing one of five soothing sounds, such as the gentle sound of ocean waves or the crackle of a log fire.

40 hours of battery life, plus fast recharge
Enjoy 10 hours of battery life, plus three further full charges (30 hours) in the charging case. * Need to recharge your headphones
faster? Plug them in for 10 minutes with a USB-C charging cable to get an extra three hours of battery life. (* with the RBA function deactivated)

Multi-point connection
Pair your JBL Wave Buds 2 with two Bluetooth® devices at the same time, then easily switch between them. So if you're watching a video on your tablet, you won't miss a call on your mobile.

Seamless Bluetooth® pairing
JBL Wave Buds 2 are compatible with Fast Pair by Google and Swift Pair by Microsoft. So they pair instantly with your Android devices and Microsoft computer at the touch of a button.

Compatible Bluetooth®
