Bluetooth® Speaker Charge 6 30W Waterproof Camouflage JBL

Descriptif produit

Listen and charge wherever you are

Intense JBL Pro sound with AI Sound Boost
How can the already excellent acoustic profile of the JBL Charge get even better? We have some of the best engineers in the business and they've tweaked our equipment to produce the most realistic sounds yet. Surprisingly rich, powerful bass and crisp higher frequencies give the Charge 6 something to humbly boast about.
We've also added our exclusive new AI Sound Boost technology. It analyses music in real time to deliver maximum acoustic quality with less distortion. It's like having your own little audio genie in every Charge 6.
As a result, the Charge 6 kicks into gear, with more powerful bass, crisper vocals, and all the details in between.

Up to 28 hours of playback
Keep the mood going for up to 24 hours on a single charge. If you really need a little boost for your birthday or a dance with your partner, you can get an extra 4 hours with JBL Playtime Boost.

Connect multiple speakers via Auracast™
Wouldn't it be great to share that energy with those around you? Now we can. Thanks to Auracast™, two Charge 6 speakers can be easily paired in stereo for a wider soundstage, and
multiple JBL speakers (Auracast™ compatible) can be connected
to cover a larger area with the same playlist.

Water, dust and drop resistant
Have you ever dropped your speaker, rolled down a dusty hill and landed in a lake? No ? Well, believe it or not, it happens. That's why we've designed the JBL Charge 6 to be as durable as possible. As well as its legendary waterproof and dustproof design (rated to IP68*, the highest in the industry), we've also ensured that the device will continue to work even if it's dropped from a metre high onto a concrete floor. But please don't throw your speaker away just to impress your friends. Organise parties instead.
*Based on laboratory test conditions for immersion in up to 1.5 metres of fresh water for up to 30 minutes.

Sturdy carry strap
Now you can carry your sound with you, thanks to a handy detachable carry handle; for those of us who like to get from the car to home in one trip, whatever the cost.

Fast charging
No more low-battery stress! Give your Charge 6 a boost in the blink of an eye: 10 minutes on the charger is enough for 150 minutes of playback.

Integrated portable charger
No need to interrupt the party. The built-in portable charger lets you charge your mobile device* while you continue to play your music.
*The JBL Charge 6's built-in portable charger does not charge a laptop.

Lossless audio playback
When music becomes lossless, it gets even better. For true audio lovers, we've made lossless audio possible by plugging your laptop or other audio device into our USB-C port^. But, of course, for this to work, you need a compatible lossless audio source*.
^: Feature available via software update of the JBL Portable app over the air (OTA)
*Requires compatible lossless audio content from supported apps/services.

JBL Portable Application
It's an application. We've used them all, and they can be very handy. The JBL Portable app gives you access to support, updates and customizable audio controls. So get the sound that best suits your mood, whatever the moment.

Recycled plastic and fabric, plus FSC-certified paper packaging
The JBL Charge 6 speaker contains post-consumer recycled plastic and fabric for the speaker grille. It is also packaged in FSC-certified paper, printed with soy ink.

Technical characteristics

Transducers: 53 x 93 mm for woofer, 20 mm for high-frequency driver
Output power: 30 W RMS for woofer; 10 W RMS for high-frequency driver
Output power (max.): 45 W (max)
Input power: Voltage: 5 V to 20 V (5 V, 9 V, 12 V, 15 V, 20 V)
Current: 3 A (max)
Frequency response: 56 Hz to 20 kHz (-6 dB)
Signal-to-noise ratio: > 80 dB
Connection ports: USB-C (input/output) (USB cable not included)
Bluetooth® version: 5.4
Bluetooth® profile: A2DP 1.4, AVRCP 1. 6
Bluetooth® transmitter modulation: GFSK, π/4 DQPSK, 8 DPSK
Bluetooth®transmitter frequency range : 2,400 MHz - 2,483.5 MHz
Bluetooth® transmitter power: < 15 dBm (Equivalent Isotropic Radiated Power, EIRP)
Product dimensions (W x H x D): 228.8 x 98.5 x 94 mm
0.99 kg (with strap) 0.96 kg (without strap)
Packing dimensions (W x H x D): 256 x 119 x 145 mm
Gross weight: 1.37 kg

Maximum operating temperature: 45 °C
Battery type: 34 Wh lithium-ion polymer (equivalent to 7.2 V/4,722 mAh)
Battery charge time: 3 hours (12 V - 20 V/3 A)
Music playback time: Up to 24 hours of playback time plus an additional 4 hours with Playtime Boost (variable depending on volume and audio content)
