

Kit Smart Camera AOV PT 5MP Outdoor with solar panel White IMOU

Descriptif produit

Always on, continuous recording.

Unlimited autonomy for total peace of mind
The AOV PT makes security a worry-free experience. Thanks to the 10,000 mAh battery and the solar panel that constantly recharges it, the camera operates without interruption.

Extremely long-range detection for enhanced protection
The AOV PT accurately detects up to 25 metres away, considerably reducing the false alarms and inaccuracies of PIR detection.

Choose between a Wi-Fi or 4G connection
The AOV is the ideal solution for use in locations where there is no Wi-Fi connection. The camera supports both Wi-Fi and 4G and automatically switches from one to the other in the event of a power cut, guaranteeing continuous surveillance 24/7.

No wires, no effort
AOV PT is impervious to the cold, so it charges reliably even in cold weather
Conventional battery-powered cameras struggle to recharge in winter. With IMOU's low-temperature charging technology, the AOV PT can recharge even at -10°C.

Every angle and every detail visible
Simply install the AOV PT in huts, granjas, holiday homes, campsites, etc., without thinking about cable work, and you'll be able to start protecting it quickly.

Security in 3K UHD resolution
The AOV PT provides images in 3K UHD resolution where every detail is sharp and precise so that you don't miss a thing.

Pan and tilt for 360° protection
The AOV PT supports an angle of 0°-340° and a tilt of 0°-90° to fully protect your home with a 360° view.

Brighten up the night with intelligence
The AOV PT can be set to different night vision modes to suit your needs and can automatically switch to colour mode when a person is detected to ensure a clear, bright image; you can also disable night vision mode or apply IR mode only to reduce power consumption.

AI-enabled human detection with IMOU SENSE®.
IMOU SENSE® is an algorithm developed by the company itself under the brand name IMOU. AOV PT uses the enhanced human detection algorithm IMOU SENSE®, which improves overall accuracy by 50% and delivers results in less than 0.02 seconds.

Enhanced deterrence against unwanted visitors
AOV PT is equipped with red and blue warning light spots, far more effective than conventional white spots at deterring intruders.

Professional all-weather protection
With its IP66 waterproof rating, the AOV PT is weatherproof and can operate in all weathers.

Local storage on microSD card up to 512 GB
Use a micro SD card of up to 512 GB to store your images without worrying about the storage limit.

Connect to your home from anywhere
The camera supports full-duplex two-way calls with built-in echo cancellation, enabling fluid communication in real time with the person in front of the camera.

Customisable detection zone
Define specific areas to be monitored via the app to minimise false alarms and improve surveillance accuracy.

Customisable sound alarm
Choose from a range of pre-recorded alarm sounds or customise your own via the Imou Life app.

Surveillance programming
Program the camera's operating times to suit your needs perfectly.

Privacy at the click of a button
The AOV PT has a physical privacy mode. Press the button and the lens swivels inside the housing. A simple gesture is all it takes to guarantee your privacy at all times.

Technical characteristics

Camera
1/3" Progressive CMOS
5MP (2880*1620)
Night vision: 36m (118ft) Distance
3.6mm Fixed Lens
Field of view: 3.6mm : 76°(H), 41°(V), 91°(D) (330° Pan, 90° Tilt)

Compatible WiFi

Color : White

Ref : IMOUKITCAMAOVPT

EAN : 6971927235704

Pack contents : Kit Smart Camera AOV PT 5MP Outdoor with solar panel + User Guide/Security/Warranty

Rechargeable Battery 10000mAh

Materiel : Plastic
DC 5V2A Power/ Solar Panel
Power Consumption:<3.5 W
Operating Temperature:-20°C~+50°C (-4°F~122°F)
Charging Temperature:-0°C~+45°C (14°F~113°F)
Camera Dimensions:177*110*142 mm(6. 96*4.33*5.59 inch)

Kit dimensions : 222*181*177mm(8.74*7.13*6.97 inch)
Camera weight : 1000g(2.2lb)
CE"

Compatible mobiles

Compatibilité

Compatible avec : IPHONE 3G .
