Great sound for a great day

High-Resolution Wireless Audio with JBL Signature Sound
The 10mm dynamic drivers in the JBL Live Buds 3 feature JBL Signature Sound. Each driver is perfectly tuned to deliver deep bass, balanced mids, and refined highs, all at any volume level. JBL Spatial Sound makes you feel like you're at a concert, as sound can come from virtually anywhere around you.

Convenient Smart Charging Case™ for app-free control
You can customize every aspect of your JBL Live Beam 3 earbuds with the 3.68-centimeter (1.45-inch) touchscreen on your Smart Charging Case™. The screen gives you complete control over your sound, regardless of the device (laptop, TV, smartphone, or tablet), without needing to access the JBL app on your smartphone.

Adaptive Noise Cancellation with Personalized Controls
Completely block out the outside world or customize the amount of ambient noise to let in, thanks to four noise-detecting microphones that automatically adapt to your surroundings in real time. Automatic compensation in the JBL Headphones app adjusts and optimizes the level of Adaptive Noise Cancellation based on your usage and ear canal, ensuring effective noise reduction tailored to your personal listening experience.

JBL Spatial Sound makes movies and music truly immersive.

If someone ever calls you, six microphones ensure perfect sound quality, even in the noisiest environments.

What's more, the earbuds can enjoy a 48-hour charge: 12 hours in the earbuds* and an additional 36 hours in the case. They can even charge wirelessly!

The charging case features a lanyard loop for added convenience.
