Descriptif produit

High-resistance 360° protection that enhances your mobile while guaranteeing its safety - Lifetime warranty

Front case + Back cover for 360° protection
The reinforced double case Duo resists shocks and falls up to 2 meters

The alliance of finesse and robustness
These ultra-resistant cases have been made from materials of choice. It is the combination of 2 exclusive technologies that gives it its extreme resistance to everyday damage.

X Cross Impact Technology
Corners reinforced thanks to a uniform diffusion of the shock wave along 4 axes.

Protective raised contours
The edges and edges of the camera are reinforced for full protection. You will be able to put your smartphone on the front or back without risk.

Elegant finish and design
Aesthetic and resistant, its design lets you appreciate the original beauty of your smartphone while offering you the best grip.

Custom design
Adapts perfectly to the design of the mobile by highlighting the control buttons. The screen and camera are protected by raised edges to reduce the risk of scratches. You will be able to put your smartphone on the front or back without risk.

Special anti-yellowing treatment
Made from a yellow-treated polymer alloy, your case will retain its transparency much longer.

How does the Recyclerie work?
You have just purchased one of our products and you wish to return your old product to us for recycling. We ensure the collection of all old products, which are then dismantled and recycled in the appropriate sector by our partner Véolia.

How do I return my product?
Using the QR code or link provided in the pack of the purchased product www.force-mobility.fr/recyclerie, download a free return voucher from our site to return your product to us for recycling.

What happens to my old product?
Once recycled, your product is reintegrated into the production of everyday objects such as: bicycle, radiator, public bench, etc., this is what we call the circular economy!

A reduced carbon footprint for a more responsible purchase!
The carbon footprint is an environmental indicator that designates the total quantity of greenhouse gases generated throughout the product life cycle, from production to use and recycling. This indicator was calculated using the LCA method (life cycle analysis standardized ISO 14040-44) which is the most advanced and scientifically robust method, in terms of eco-design and environmental performance.
