Solar Powerbank Xtreme Series 10000mAh 3 USB 2A+C ports 20W PD Integrated SunPower® 4.5W solar panel Orange Xtorm

Descriptif produit

The Xtorm Solar 10,000 Supercharger is a rugged outdoor solar charger with a dual solar panel for maximum energy capture.

Robust outdoor solar charger with a dual solar panel for maximum energy capture: the freedom and energy to go wherever you want. It's perfect for all your adventures.

Powered by the sun
The solar supercharger itself can be recharged in two ways: via USB or simply by taking it out and letting the integrated solar panels do the work.

Powerful, high-capacity battery
The solar supercharger is equipped with a 10,000 mAh lithium-polymer battery, powerful enough to charge a smartphone up to 4 times. The supercharger also features a 20W USB-C output that quickly charges your smartphone, so you're always ready to go.

Designed for adventure
The solar supercharger is splash-proof, making it the ideal solar supercharger for all your outdoor adventures. With the large internal battery and powerful solar panel, you'll always have extra power at your fingertips, wherever and whenever you need it!

Solar Charging Time
A wide variety of factors affect how quickly the sun can recharge your solar charger, such as season, location, time of day, and of course cloudiness.

To give you a clear idea of how much free energy you can expect from the integrated solar panel, we've provided two different scenarios below to illustrate the difference in charging speed.

How long does it take to fully charge your solar charger:
1. On a sunny day in spring or summer, it takes about 5 days.
2. On a sunny day in fall or winter, it takes about 10 days.

As you can see, we haven't provided an example of how long it takes to fully charge on the cloudiest days. This is because, unfortunately, solar charging isn't efficient enough in these conditions.

At Xtorm, we use high-efficiency SunPower solar cells to provide as much energy as possible from a small area. Are the charging times listed above not as fast as you'd like? Don't worry, at Xtorm, we have chargers and solar panels in all sizes. Check out our other products to see which one is best for you!

Universal - Port(s) USB 2A+C

Color : **Orange**

Feature(s) : **Battery Capacity: 10000mAh - Wired Charge Waterproof - Integrated SunPower® 4.5W solar panel**

Port(s) : **USB C / USB C**

Power : **10000mAh**

Ref : **XTORMXR105**

EAN : **8718182275476**

Pack contents : Solar Powerbank Xtreme Series 10000mAh + USB C / USB C Cable + User Guide/Security/Warranty

Technical characteristics

Dimensions : 2,10x16,5x10 cm
Weight : 490g
Number of Outputs : 3
Output 1 Type :USB-C PD
Output 2 Type : USB-A Quick Charge 3.0
Output 3 Type : USB-A Quick Charge 3.0
Solar panel (W) : 4.50
Type input : Solar Panel,USB-C PD
Battery charging time (h) : 2.00
Capacity (mAh) : 10000.00
Phone charging times : 2.00
AC-Adapter : No
Flashlight : No
LCD : No
Water resistant : IPX4
Input (W) : 20.00
Output 1 (W) : 20.00
Output 2 (W) : 18.00
Output 3 (W) : 18.00
Output Types : USB-C PD,USB-A Quick Charge 3.0
№ of Battery Cells : 1
Battery Type : Li-Polymer
Capacity (Wh) : 37.00
Max power (W) : 20.00
Tablet charging times : 1.50
Carabiner : Yes
Incl. cable : Yes
LED battery indicator :Yes
Pouch : No
Wireless : No
