Buds 3 FE True Wireless Earphones Black Samsung

Descriptif produit

Exceptional sound accessible to all

New design, true comfort
Thanks to the ergonomic design of the Galaxy Buds3 FE, your earphones fit perfectly in your ears and ensure maximum comfort in all circumstances. Their design is also perfect for long-term use, with optimal fit and guaranteed sound quality.

A new timeless and elegant design
Available in Black or Grey with a matte finish, the Galaxy Buds3 FE offer a minimalist and elegant design to accompany your everyday life.

Customisable, deep and powerful sound
Let yourself be carried away by the powerful and dynamic sound of the new Galaxy Buds3 FE speaker, with deeper bass and rich, detailed sound.

A unique sound experience with Audio 360
Immerse yourself in a multidimensional environment with spatial, immersive sound, as if you were there. Thanks to Audio 360 technology, enjoy 360° sound and travel through your music or videos.

Premium active noise cancellation
Enjoy only what matters with Active Noise Cancellation, which allows you to forget about background noise and focus on what you're listening to. Perfect for travelling on public transport or enjoying a quiet coffee.

Clear and crisp voice capture
Galaxy Buds3 FE capture your voice and ensure advanced call quality with Galaxy AI. Ambient noise and your voice are analysed by a machine learning model to ensure you are heard even in the noisiest environments.

Control your earbuds with a simple gesture
Control your playlists or podcasts without having to take your smartphone out of your pocket. Whether you're on public transport or on the move, a simple gesture is all it takes.

Slide controls
Turn the volume up or down by sliding your finger up and down the stem. It couldn't be easier.

Pinch controls
Pinch to play or pause your music, pinch twice to skip to the next song, or pinch three times to go back.

Customise your sound to your liking
Access sound settings and noise reduction adjustments directly from your Quick Settings, without having to stop your content. You can customise the equaliser to suit Spotify or activate 360 Audio mode when you launch YouTube. Save your settings for each app to ensure the sound is tailored to your preferences.

Have a question? Ask Gemini.
Talk to Gemini directly from your Galaxy Buds3 FE with a simple ‘Hey Google'. It goes with you everywhere, from the gym to your home, and answers all your questions directly. You can record your workouts, ask it to remember your parking spot, create reminders on your smartphone, or send messages with ease.

Break down language barriers with Galaxy AI
With Galaxy AI and Interpreter, chat without language barriers and translate your conversations live using your earbuds. Whether you're travelling or at work, you'll have an interpreter with you wherever you go.

Listening Mode
To access Listening Mode, pinch and hold the stem of your Galaxy Buds3 FE, and you'll hear a real-time translation of what the other person is saying. Handy for a museum visit or a conference abroad!

Easy to pair between devices
Quickly pair your Galaxy Buds3 FE with your Galaxy devices. It's easy: open the Galaxy Buds3 FE case to start the automatic connection, then tap ‘Connect' on your smartphone.
With Auto Switch on your Galaxy Buds3 FE, you can switch between Galaxy devices without interruption. For example, you can watch a video on your Galaxy Book, then receive a call on your Galaxy smartphone: your Galaxy Buds3 FE will automatically select the device to use.

Compatible Bluetooth®

Color : **Black**

Ref : **SM-R420NZK**

EAN : **8806097620952**

Pack contents : True Wireless Earphones + Charging case + USB C Charging Cable + 3 sizes of tips (S, M, L) + User Guide/Security/Warranty
