

Bluetooth® Speaker Grip 16W Waterproof Black JBL

Descriptif produit

Grip the fun, anywhere, anytime.

Bold JBL Pro Sound

The JBL Grip may be small enough to hold in one hand, but it packs bold JBL Pro Sound. With AI Sound Boost, it analyzes music in real time, using an algorithm to optimize output for bigger sound with less distortion.

Up to 14 hours of playtime

Keep the mood going for 12 hours on a single charge—plus an extra 2 hours with Playtime Boost when the vibes are too good to stop.

Ambient light

The speaker's back panel features an integrated ambient light with unique themes and color options, so you can set the mood to match your mix. Use the JBL Portable app to finetune the brightness and lock in your preferred look.

Waterproof, dustproof, and drop-proof

We designed the JBL Grip to handle the bumps and bruises of everyday fun. Along with its waterproof and dustproof IP68 rating, it's also drop-proof—built to keep playing even after a 1-meter drop onto concrete.

Multi-speaker connection with Auracast™

Want to share the vibes with the crew? With Auracast™, we can easily stereo pair two Grip speakers for a wider soundstage or connect multiple JBL Auracast™-enabled speakers to fill the space with the same playlist.

JBL Portable app

Customize the Grip's sound with a 7-band EQ, light color options, and intensity, and get updates and support directly from the JBL

Portable app. That way, we can always match the sound and vibe to our mood, wherever we are.

Recycled plastic and fabric, plus FSC certified paper packaging

Built with post-consumer recycled plastic and fabric for the speaker grille, so we get big sound with less impact to the planet. It's also packaged in FSC-certified paper printed with soy ink.

Technical characteristics
