Endurance Pace True Wireless Earphones Black JBL

Descriptif produit

Feel the beat, sense your surroundings

Open-ear comfort with memory wire neckband
Enjoy great JBL sound while keeping your ears open to the world around you. Meanwhile, the extremely lightweight titanium memory metal frame keeps its shape no matter what, so you can wear it comfortably all day long.

IP68 water and dust proof
Sweat, rain, salt water, and sand? Sounds like a great time. JBL Endurance Pace headphones carry an IP68 waterproof and dustproof rating, so they can withstand it all. Not to mention high temperatures, high humidity, or long-distance drops.

JBL OpenSound technology
Enjoy clear, exciting music while leaving your ear canal open, so you can always hear your surroundings while you exercise. A sensitive 18x11mm dynamic driver delivers crisp, clear highs and round, rich mids, while our adaptive bass boost algorithm provides the beat that keeps you moving. The directional sound of your JBL Endurance Pace headphones ensures minimal sound leakage. So both your music and your calls are for your ears only.

2 mics for clear call quality
Two beamforming mics pick up and clearly transmit your voice while cancelling out ambient noise. So you can make clear, crisp calls even when you're jogging through a busy park on a breezy day.

A battery that lasts as long as you do
Get over a week's worth of workouts between charges. You can enjoy up to 10 hours of music, or spend an entire workday on the phone. And if you need an especially long workout after all those calls, just a quick, 10-minute charge will give you another four hours*.
*Charging cable not included.

Customize on the go with the JBL Headphones app
Use the JBL Headphones app to select the EQ that fits your style—or customize your own. Use the Relax Mode to find the best sound for recovering after a workout.

Hands-free calls and music management
The 3-button controls allow you to easily manage volume, and control calls and music without using your phone.

Multi-point connection + Fast Pair enabled by Google
JBL Endurance Pace come enabled with both Fast Pair by Google and Swift Pair by Microsoft. So they immediately pair with both your Android devices and Microsoft computer with a single tap, and stay paired.

Google Finder and Google Audio Switch
With Google Finder you can use an Android device to locate your misplaced earbuds. Seamlessly switch from one Android Bluetooth® device to another with Google Audio Switch. Jump from a video on your tablet to a call on your mobile phone, and never miss a moment.

Compatible Bluetooth®

Color : **Black**
