

Smart Camera Tapo TC41 2K QHD Outdoor White TP-Link

Descriptif produit

Tapo TC41: Smart 2K Panoramic Outdoor Surveillance

360° Full Vision and 2K Clarity

Capture every detail with high-definition 2K resolution for precise identification of faces and objects. Thanks to its motorized rotation, this camera provides total panoramic coverage, eliminating blind spots around your home.

Smart Tracking and AI Detection

Built-in artificial intelligence identifies people and automatically follows their movement to keep the subject within the field of view. Receive instant notifications on your smartphone as soon as relevant activity is detected in your monitoring zones.

Active Deterrence and Night Vision

Protect your home with a customizable sound and light alarm that triggers to scare off unwanted visitors. Even in the dark, the TC41 ensures effective monitoring to let no movement go unnoticed.

Robust Design and Flexible Storage

Certified weather-resistant, this camera is built to withstand harsh outdoor conditions throughout the year. Securely save your videos on a local microSD card or opt for the Tapo Care cloud storage service.
