

Solar Panel + Camera Kit Tapo TC90 2K 3MP Outdoor White TP-Link

Descriptif produit

Tapo TC90 Kit: 2K Panoramic Security with Infinite Solar Power

Unlimited Autonomy and Hassle-Free Installation

Equipped with a high-performance solar panel and a 6700 mAh battery, the TC90 camera operates fully autonomously without the need for complex wiring. The included 4-meter extension cable offers total freedom to place the solar panel in the sunniest spot while positioning the camera strategically.

360° Total Coverage and High-Definition Vision

Capture every detail with crystal-clear 2K 3MP resolution, eliminating any image blur. Its smooth motorized system allows for 360° horizontal and 130° vertical rotation, ensuring complete monitoring of your outdoors with zero blind spots.

Smart Vigilance and Active Deterrence

On-board artificial intelligence accurately detects people to alert you only during significant events directly on your smartphone. In the event of an intrusion, the powerful 97 dB siren and light alarm trigger automatically to ward off unwanted visitors.

Full-Color Night Vision and Extreme Durability

Enjoy color night vision up to 30 meters thanks to integrated spotlights, making it possible to identify clothing or license plates even in total darkness. With an IP65 rating, this camera perfectly withstands rain, dust, and extreme temperatures for reliable year-round protection.
