

Smart Camera Cruiser Dual 2 6MP 2x2k Outdoor White IMOU

Descriptif produit

Dual Outdoor Perspective for Maximum Security

Dual 6MP lens system
Combine a fixed view and a motorized view to monitor two directions simultaneously with 6MP clarity. This technology allows securing a building corner without any dead zones.

Smart night vision modes
The device offers four night modes, including full color vision thanks to the built-in spotlights. You choose the visibility that best fits your outdoor configuration.

AI automatic tracking
The two lenses work together to identify and track suspicious movements. When a target enters the field, the camera rotates to keep it under constant surveillance.

Stable Wi-Fi 6 connection
Thanks to the latest Wi-Fi 6 technology, the video stream is more stable and penetrates walls better. This ensures a smooth high-definition image without lag, even outdoors.

Weather-resistant structure
Certified to withstand the harshest conditions, this camera fears neither downpours nor dust. Its robust housing ensures long-lasting protection of your property all year round.

Communication and active deterrence
The built-in speaker allows talking to visitors while the siren repels intruders. You manage the security of your main access directly from your mobile screen.
