

Smart Camera Cruiser 2C 5MP 3K Outdoor White IMOU

Descriptif produit

3K Outdoor Protection with Color Night Vision

Ultra-precise 3K definition

The 5MP sensor offers superior resolution to monitor your outdoors with incredible sharpness. Every license plate or face is identifiable even from a distance.

Full color night vision

Thanks to its built-in LED spotlights, the camera captures color images even in total darkness. Several night vision modes are available to adapt to your environment.

360° motorized rotation

Control the viewing angle of your garden or driveway over 360 degrees via the application. The camera rotates smoothly to leave no blind spots outside.

Robust IP66 design

Certified housing to withstand rain, frost, and dust for 24/7 monitoring. It operates reliably in extreme weather conditions from -30°C to 60°C.

Human and vehicle detection

Artificial intelligence distinguishes people and cars to limit alerts caused by vegetation. You receive only crucial notifications on your smartphone.

Deterrent siren and flash

Upon intruder detection, the camera automatically activates its spotlight and built-in siren. This active defense helps prevent burglaries before they occur.
