

Kit Smart Camera AOV Dual 5+5MP 3K - 4G LTE & 2.4GHz Outdoor with solar panel White IMOU

Descriptif produit

Total Autonomy and 10MP Vision for Remote Sites

Wireless 4G connectivity
Thanks to its SIM card slot, this camera works without any need for a local Wi-Fi network. It is the perfect solution for construction sites, farms, or areas without internet access.

Uninterrupted solar power
The included 5W solar panel keeps the high-capacity battery permanently charged. You enjoy autonomous monitoring 365 days a year without any manual intervention.

Spectacular 10MP ultra-HD dual lens
Benefit from a spectacular 10MP resolution spread across two sensors for global vision. Every detail is captured with incredible sharpness, even on very large grounds.

Always-On Video technology
The AOV system allows low-power continuous recording to never miss an event. This technical innovation guarantees immediate responsiveness as soon as a detection occurs.

Multi-target artificial intelligence
The camera identifies humans, vehicles, and animals over long distances. Push alerts inform you in real-time of any suspicious activity on your property.

Extreme outdoor resistance
Designed for harsh environments, it resists storms, intense sun, and humidity. Its reinforced structure ensures reliable surveillance in the most exposed locations.

Compatible WiFi

Color : **White**

Ref : **IMOUKITCAMAOVDUALWH**

EAN : **6937479641769**

Pack contents : Kit Smart Camera AOV Dual 5+5MP 3K - 4G LTE & 2.4GHz Outdoor with solar panel + User Guide/Security/Warranty

Technical characteristics

4G LTE Connectivity: Works everywhere via cellular network.
Solar Power: 5W panel and battery for total autonomy.
10MP Resolution: Ultra-high definition details on dual lenses.
AOV Technology: Low-power continuous recording.
Long Range AI: Intelligent detection of distant targets.
Two-way Audio: Remote communication via 4G network.
Robust Design: Ideal for isolated sites and construction areas.
