

Bluetooth® Party Speaker Partybox 130 200W Waterproof Luminous Black JBL

Descriptif produit

Elevate your party atmosphere instantly with remarkable acoustic power and a captivating visual show.

Maximum power of legendary sound

This speaker delivers an impressive 200 watts of peak power to keep your guests moving to the rhythm of your favorite tracks. It combines twin 5.25-inch woofers for punchy, deep bass and dual silk dome tweeters ensuring exceptionally clear highs.

Intelligent AI audio technology

The integration of the innovative AI Sound Boost system maximizes audio rendering when the volume goes up. This technology analyzes the stream in real time to efficiently reduce distortion and keep your music full and balanced.

Futuristic projection light show

Brighten up your events with a reimagined visual show that blends intense strobe lights and vibrant effects. These spectacular light animations synchronize flawlessly and automatically with the exact tempo of your music.

Mobility and foldable ergonomic handle

Move the party effortlessly wherever you want thanks to its built-in handle specially designed for easy transport. Its ergonomic form factor offers an excellent grip to just grab the speaker and go in an instant.

Total resistance against unexpected splashes

Benefiting from a robust design certified compliant with the IPX4 splashproof standard, the device fears no accidents. A suddenly spilled drink or an unexpected rain shower will never interrupt the fun of your festivities.

Auracast wireless ecosystem

Push the volume even further for large spaces using the advanced Auracast connectivity technology. It allows you to pair two speakers for a true stereo experience or wirelessly link multiple compatible models together.

Live stage and instrument inputs

Make room for talent by taking advantage of a comprehensive interface including optical input, lossless USB-C, dual mic inputs, and a guitar input. Thanks to the karaoke EQ settings, everyone instantly enjoys the sound of a superstar.

Modern and eco-friendly design

Committed to an environmentally respectful approach, this accessory incorporates post-consumer recycled plastic materials. Its thoughtful packaging is manufactured using FSC-certified paper printed with soy-based ink.
