

U024A USB C Earphones with Microphone In-Ear Designed for Samsung Black Samsung

Descriptif produit

Dive into a high-fidelity sound experience with these USB-C wired earphones offering exceptional comfort and audio clarity.

High-resolution sound quality
These earphones deliver rich, clear, and balanced sound for total immersion in your music or podcasts. Advanced audio technology minimizes distortion to reproduce every detail with faithful precision.

Ergonomic in-ear design
Designed for prolonged use, the ear tips fit comfortably into the ear canal for effective passive isolation. Their lightweight design guarantees a stable fit, ideal for your daily commute or sports sessions.

Universal USB-C connectivity
Thanks to the USB Type-C connector, enjoy instant plug-and-play connection on all modern mobile devices. This port ensures stable digital signal transmission for superior audio quality compared to standard jacks.

Integrated controls and mic
Easily manage your calls and music without taking out your phone thanks to the in-line remote. The high-sensitivity built-in microphone allows for crystal-clear conversations, even in noisy environments.

Durability and sleek finishes
Made with resistant materials, these earphones are built to last and withstand daily wear and tear. The elegant finishes and tangle-free cable combine aesthetics and practicality for a premium user experience.
