

Bluetooth® Headphones Tune 680BTNC ANC with Microphone Over-ear Black JBL

Descriptif produit

Total immersion and high-performance active noise cancellation

Active noise cancellation
Isolate yourself from external noise pollution to focus solely on your music or podcasts. This technology filters out ambient sounds to provide a bubble of serenity in noisy environments.

Dynamic sound signature
The audio system broadcasts deep and powerful bass thanks to precision acoustic engineering. You enjoy studio-quality sound for total immersion in every track.

Great battery life with ANC
Enjoy many hours of wireless listening with noise cancellation activated for your long commutes. The high-capacity battery ensures consistent performance throughout the day.

Premium on-ear comfort
The padded ear cushions offer exceptional softness and minimal pressure on the ears. The adjustable headband guarantees a perfect fit for a fatigue-free listening experience.

Call management and assistants
The high-sensitivity microphone allows you to answer your calls with flawless vocal clarity. Quickly access your favorite voice assistant with a single press on the integrated controls.
