

Smart Watch ICE KIDS 4G 2.0 Rectangular 40mm Silicone Strap Blue Ice Watch

Descriptif produit

Give your child a fun, reassuring, and perfectly secure first smartwatch for daily use.

Seamless 4G communication
This smartwatch incorporates 4G cellular connectivity to allow your child to make and receive high-definition video and audio calls. It ensures fluid and instant communication with parent-approved contacts.

Precise real-time geolocation
Track your child's movements with peace of mind thanks to the integrated high-precision GPS tracking system. The dedicated parental app allows you to view their live location and set up virtual safe zones.

Instant emergency SOS button
Engineered to guarantee maximum security, the watch features an easily accessible SOS alert button on the side of the case. A simple long press immediately notifies registered emergency numbers if needed.

Play and wellness companion
Ideal for encouraging an active lifestyle, the device offers fun features such as an integrated pedometer and educational games. A front camera also allows your child to independently capture their favorite moments.

Robust and waterproof design
Featuring a 40mm case tailored for younger wrists, it benefits from certified waterproofing to withstand splashes and outdoor play. Its soft silicone strap delivers exceptional wearing comfort all day long.
