Powerbank Bigee Max 20000mAh 2 USB C ports 100W PD/QC Built-in Cable Black Urban Factory

Descriptif produit

The ultimate 100W charging power packed in an ultra-high capacity body

Extreme 100W Charging Power
Propel your device charging to the next level with high-performance 100W Power Delivery technology. This exceptional output allows you to fast-charge compatible laptops, tablets, and smartphones in record time.

Gigantic 20000 mAh Capacity
Never run out of power during your travels thanks to the massive 20000 mAh energy reserve. This extended battery life is perfect for multiplying full charges of your essential electronic equipment daily.

Premium Integrated USB-C Cable
Simplify your professional and personal commutes with the convenient USB-C cable embedded right into the frame. Designed to be sturdy and flexible, it eliminates the need to carry extra messy cords with you.

Dual USB-C Ports and Simultaneous Charging
Optimize your time with dual USB-C ports integrating both Power Delivery and Quick Charge protocols. You can efficiently charge two power-hungry devices simultaneously without any drop in performance.

Compact and Safe Design
Benefit from a modern and robust engineering that combines high energy density with a perfectly portable size. Its advanced multi-protection system safeguards your valuable devices against overcharging, overheating, and short-circuits.

Universal - Port(s) USB C+C

Color : **Black**

Feature(s) : **Battery Capacity: 20000mAh - Built-in Cable**

Port(s) : **USB C / USB C**

Power : **20000mAh**

Ref : **UFBEB20UF-N**

EAN : **3760170887852**

Pack contents : Powerbank Bigee Max 20000mAh + USB C / USB C Cable + User Guide/Security/Warranty

Technical characteristics

Ultimate 100W Output: High-performance Power Delivery technology perfect for demanding laptops and smartphones.
Massive Battery Capacity: 20000 mAh energy reservoir to power all your electronic gear multiple times on the go.
Built-in USB-C Cable: Convenient and durable integrated connector that prevents carrying extra separate cords.
Dual Fast Connectivity: Two advanced USB-C ports supporting cutting-edge PD and QC fast-charging standards.
