

Powerbank Rapid 10000mAh 3 USB A+2C ports 22.5W PD/QC Built-in Cable White Rivacase

Descriptif produit

The ultra-compact 10000 mAh power bank with 22.5W fast charging and built-in cable lanyard

Ideal 10000 mAh capacity in a pocket-sized design
This high-performance external battery offers a perfect power reserve to fully recharge your smartphones and mobile devices daily. Its compact and lightweight profile slips discreetly into any pocket for total power independence.

22.5W ultra-fast charging with QC and PD protocols
Equipped with a maximum output of 22.5W, it incorporates Quick Charge and Power Delivery technologies to boost your charging times. Your compatible hardware regains its power at lightning speed while you are on the move.

Practical and multifunctional built-in cable lanyard
The power bank features a clever integrated cable that doubles as a handy lanyard for a secure grip. No more carrying messy cords around, your charging interface stays with you and is instantly accessible.

Multi-connectivity layout for simultaneous charging
It offers several USB-A and USB-C output ports to refuel multiple electronic devices at the exact same time. Its smart power management system distributes energy optimally to each connected piece of hardware.

Precise LED indicator for real-time power tracking
The clear light display allows you to monitor the remaining battery status at a single glance. A simple and ergonomic interface designed to let you easily plan your recharges and prevent unexpected outages.

Total security and advanced electronic protection
This premium portable charger incorporates multiple safety guardrails against overcharging, overheating, and short circuits. A rigorous structural build that efficiently preserves the lifespan of your valuable electronic gear.

Universal - Port(s) USB A+2C

Color : **White**

Feature(s) : **Battery Capacity: 10000mAh - Built-in Cable**

Port(s) : **USB C / USB C**

Power : **10000mAh**

Ref : **RIVACPBVA2311WH**

EAN : **4260709016276**

Pack contents : Powerbank Rapid 10000mAh + USB C / USB C Cable + User Guide/Security/Warranty

Technical characteristics

Pocket format: 10000 mAh capacity tailored for daily recharges of your mobile hardware
Superior speed: 22.5W output featuring Quick Charge and Power Delivery for accelerated refueling
Integrated cable: Power cord acting as a carrying lanyard for clutter-free everyday use
Charging versatility: Multiple USB-A and USB-C ports allowing to power several devices concurrently
Visual tracking: Intuitive LED indicator displaying real-time remaining power levels
Absolute safety: Built-in electronic protections safeguarding against power surges, overheating, and short circuits
