

Milky Way Projector Stellar Light 23cm MOB

Descriptif produit

The official MOB Stellar Light Silver astronaut galaxy projector with rocket remote control and 8 starfield light effects

Immersive Milky Way galaxy projection
Transform any room into a breathtaking celestial view with a vibrant Milky Way projection combined with a starry laser effect. It crafts a peaceful, soothing atmosphere designed to relax both children and adults before sleep.

Silver astronaut design with rocket remote
Add an eye-catching, futuristic touch to your desk or nightstand with this shining silver astronaut figure. It comes paired with a playful rocket-shaped remote control for easy and intuitive distance setting adjustments.

8 visual effects and full customization
Customize your ambient lighting with 8 integrated visual modes alongside twinkling laser stars. The projector features 4 display speeds and adjustable brightness levels so you can set the ideal mood for every night.

Smart off-timer and sleeping aid
Rest easily without leaving the projector running all night thanks to 2 built-in automatic shutdown timer options. Set the timer at bedtime to drift off peacefully under a starry sky.

USB-C power supply and wide coverage
Fill your ceiling and walls with cosmic light thanks to an effective projection range of up to 5 meters. The projector operates via main power using the included USB Type-C charging cable.
