

iPhone Duo MagSafe Case Iceland Ultra D3O MS Kick + Ring Video Stand Black - GRS Certified DBramante1928

Descriptif produit

The ultimate ultra-slim transparent MagSafe case combining D3O impact protection with a rotating kickstand

Advanced D3O 3-meter drop protection

Shield your smartphone against severe impacts and accidental drops thanks to cutting-edge D3O Zero technology. Engineered to absorb and dissipate shock energy up to 3 meters, this rigid case keeps your phone safe without altering its slim profile.

MagSafe integration for seamless charging

Enjoy effortless wireless power delivery with the integrated MagSafe magnetic ring. It guarantees precise alignment and full compatibility with all your MagSafe chargers and magnetic accessories without removing the case.

360° Rotating Kickstand feature

Experience tailored viewing angles using the built-in rotating kickstand mechanism. Highly versatile and sturdy, this hands-free stand is perfect for watching movies or taking video calls on the go.

100% GRS certified eco-friendly materials

Make a sustainable choice for the planet with a case crafted entirely from 100% GRS certified recycled materials. Fully recyclable after use, it combines advanced technical defense with genuine environmental care.

Ultra-slim and lightweight design

Showcase your device's original aesthetic with a remarkably thin and lightweight hard shell structure. Its sleek ergonomic build offers superior defense against drops while maintaining a comfortable fit in hand or pocket.

Precision fit all-around defense

Benefit from tailored protection covering every edge, corner, and button of your mobile device. Elevated bezels shield your screen and camera lenses from flat surface friction and daily scratch hazards.
