

Bluetooth® Sound Bar Cinema SB550 MK2 with wireless subwoofer Black JBL

Descriptif produit

Instantly upgrade your TV sound with a complete audio system delivering remarkably clear dialogue and deep impactful bass

Dedicated center channel for crystal-clear dialogues
Enjoy sharp, clear, and easy-to-understand voices thanks to the soundbar's dedicated center channel. You will never need to rewind or strain your ears to catch spoken lines in movies, TV shows, and sports broadcasts.

Deep punchy bass with wireless subwoofer
Feel every impact and dive into action scenes with the separate wireless subwoofer. It delivers rich, deep bass performance without messy cable clutter, bringing your home entertainment to life from subtle whispers to huge explosions.

360W peak power and integrated Dolby Audio
Turn your living room into a real home theater with 360W of total maximum amplification power. Built-in Dolby Audio decoding adds extra sonic depth and realistic details to keep you completely immersed in every scene.

Single-cable HDMI ARC and Bluetooth 5.4 streaming
Set up your system effortlessly using the single HDMI ARC connection with your TV. Integrated Bluetooth 5.4 technology allows seamless wireless audio streaming for music, podcasts, and playlists directly from your smartphone or mobile devices.

Surround expansion and eco-friendly design
Expand your setup into a true wireless surround sound system by pairing compatible JBL Bluetooth speakers using SurroundPlay. Engineered with sustainability in mind, it uses recycled post-consumer plastics and ships in FSC-certified paper packaging printed with soy ink.
