

Backpack Boboli ECO 20L Black Rivacase

Descriptif produit

Combine urban style with eco-friendly protection using a backpack made from water-resistant recycled materials for laptops up to 16 inches.

Modern Urban Design and Water-Resistant Material Designed for everyday commuting and travel, this backpack offers a clean profile while protecting your gear from moisture thanks to its high-quality water-resistant fabric. Protected Neoprene Hanging Laptop Compartment The spacious main compartment features a dedicated padded neoprene hanging sleeve designed to keep laptops up to 15.6-16 inches elevated and safe from impacts. Optimized Storage with Smart Organization Includes two front zipped pockets for small essentials, an interior mesh zipped pocket for cables and accessories, and side pockets for a water bottle or umbrella. Ergonomic Comfort and Trolley Strap Equipped with softened shoulder straps featuring a strap management system to prevent loose ends, along with a rear trolley strap to attach seamlessly to rolling luggage. Eco-Conscious RPET Construction Made with 60% recycled polyester by total weight—equivalent to 19 recycled PET plastic bottles per bag—delivering durable performance with reduced environmental impact.
